

**Adult Volunteer
Personal Information Release Form
Great Sauk Trail Council
Boy Scouts of America**

The Great Sauk Trails Council (GSTC) realizes that for the Council web sites to be effective that at times personal information of adult volunteers must be used. However, before volunteer information can be posted on the Council web site (which includes our lodge pages), that volunteer must have the following release form on file with the GSTC Council Communications Chairman. In this regard, the GSTC will follow all items outlined in the “GSTC Internet Guidelines”.

The information below is provided with the understanding that as long as you hold this position your information will be posted. Should it ever become necessary to have your information removed from the council web site, email notification to commadvisor@manitous88.org and your information will be removed as soon as is practically possible.

The first portion of the release form should be completely filled out for GSTC’s use if notification is necessary and any information contained in this portion **will not** be used on the web site. The second portion is information the volunteer wishes to allow GSTC to use on their web site. The third portion is the signature portion granting use of information.
